Sale costs bridge: $115,000.00 − $16,594.90 = $98,405.10 = net wire + tax refund.

HOW EACH RETURN IS WORKED OUT

Net profit — sale money + net rent − cash invested
$98,405.10 + $12,721.86 − $74,184.18 = **$36,942.78**

Total return (ROI) — net profit ÷ cash invested
$36,942.78 ÷ $74,184.18 = **49.8%**

Annualised return — $(\text{end money} \div \text{cash invested})^{1 \div \text{years}} - 1$
$(\$111{,}126.96 \div \$74{,}184.18)^{1 \div 1.36} - 1 \approx$ **34.6% a year**

Gain on price — sale money received − purchase price
$98,405.10 − $75,000 = **$23,405.10** · headline price rise $75k → $115k = **+53%**

Gross yield — rent per year ÷ price
($16,475 ÷ 1.36 years) ÷ $75,000 = **16.1%**

Net yield = cash-on-cash — (rent per year − tax per year) ÷ cash invested
($12,107.74 − $2,092.32) ÷ $74,184.18 = **13.5%** (all cash, so the two are equal)

Break-even on rent alone — cash invested ÷ net rent per year
$74,184.18 ÷ $10,015.42 ≈ **7.4 years**

Break-even sale price — cash invested − net rent + sale costs
$74,184.18 − $12,721.86 + $16,594.90 = **$78,057.22**

ASSUMPTIONS AND BASIS

- All cash, no loan, so there is no interest cost and cash-on-cash equals net yield.
- Hold period 1.36 years: closing 1 Mar 2024 to sale 11 Jul 2025 (about 16 months).
- Rent is what reached the owner, after B2B Realty's fees. Oct 2024 ($1,200) is an estimated fill-in; every other month is bank-recorded.
- The county tax refund ($2,931.08) is counted as sale-related money received.
- Property tax: $2,092.32 a year; $2,847.02 over the hold. All figures in US dollars.
- The $906.12 repair was the only maintenance ever paid. Other maintenance, council fees and company formation fees: none incurred (confirmed).
- Sources: purchase and sale settlement statements, recorded deed, contractor estimate and bank records.
